Farmaforum Brokerage Event

Farmaforum 2019, Forum Pharmaceutical, Biopharmaceutical and Laboratory Technology celebrates its sixth edition in Madrid. Again we have chosen IFEMA facilities, specifically the pavilion 8 of Feria de Madrid.

In its six years of existence, **Farmaforum** has established itself as the most important event of the Pharmaceutical Industry in Spain, extending its subject and sharing synergies with the biotechnology industry and the cosmetics industry through special areas **Biotechforum** and **Cosméticaforum**.

Farmaforum consists of an exhibition area and an extensive program of conferences, workshops and also provide many occasions for networking.

In 2019 and after the success in 2018 will also be held the second edition **Labforum**, Materials, Instrumentation, Equipment and Methods for Analysis and Diagnostic Laboratory. A complementary and parallel fair to **Farmaforum**, focused on the new generation of any research or analytical lab.

The pharmaceutical industry, biotechnology and cosmetic industry among other sectors, rely on advances in research to launch their products. Accelerate these processes ensuring quality and safety directly influences the costs of a new development and is therefore of utmost importance for companies

Who can participate

Any entity interested in collaborating with Spanish and international entities that work in the fields of Pharmaceutical, Cosmetic, Biotechnology, Laboratory Materials and Sanitary Biotechnology.

Registration and participation

To participate in the meetings you have to register on the [online platform](#) and upload a cooperation profile. Once the profile has been validated, interviews with other participants may be requested.
