

International B2B Match-making Event for Offshore Wind Energy Experts | 21 May 2019

The Inn2POWER project and the Enterprise Europe Network Bremen hold a matchmaking event for the wind energy sector at the WINDFORCE Conference 2019

The annual WINDFORCE Conference in Bremerhaven by the WAB-Wind Energy Agency has become the central meeting place for the offshore wind industry in Germany during its 14-year history. This event offers next to international specialist lectures excellent networking opportunities of which the WINDFORCE Dinner forms the highlight for experts from the industry to enjoy the company of old and new business associates in a pleasant atmosphere.

Face to face meetings - the way to successful business!

Based on the great experiences of the past year, we will organize a B2B Matchmaking Event this year again. The B2B Matchmaking Event, jointly organised by the Inn2POWER project partners and the Enterprise Europe Network, brings together companies of the offshore wind industry (buyers as well as suppliers) from a large number of European countries. This is a unique opportunity to generate new business contacts and contracts. On May 21 business representatives as well as delegates from universities, research institutes and politics will talk to each other in 20 minutes pre-arranged meetings to present business opportunities, to explore new projects and to set up new partnerships. This business speeddating is accompanied and followed-up professionally by the Enterprise Europe Network.

B2B Matchmaking at the WINDFORCE 21.05.2019

Participation at the Inn2POWER B2B matchmaking is free of charge and can be attended independently of the participation of the WINDFORCE Conference.

WINDFORCE Conference 2019

21.-22.05.2019

Atlantic Sail City Hotel Bremerhaven
