

About

The X-Europe Programme brings together leading startups, investors, corporations, and ecosystem builders to facilitate the shared growth of deeptech industries and solutions.

Match with startups to kickstart sustainable partnerships boosting the growth of your innovative business ideas.

How

- Each cohort of X-Europe brings together 25+ startups in order to provide matchmaking.
- With the support of TNW's rigorous process, your company can select the startups that can solve your innovation challenges.
- In a facilitated meetup session see your selected startups pitch, dig into the details in one-on-one sessions, and identify opportunities to collaborate.
- TNW's collaboration shaping session will create the action plan for your partnership.

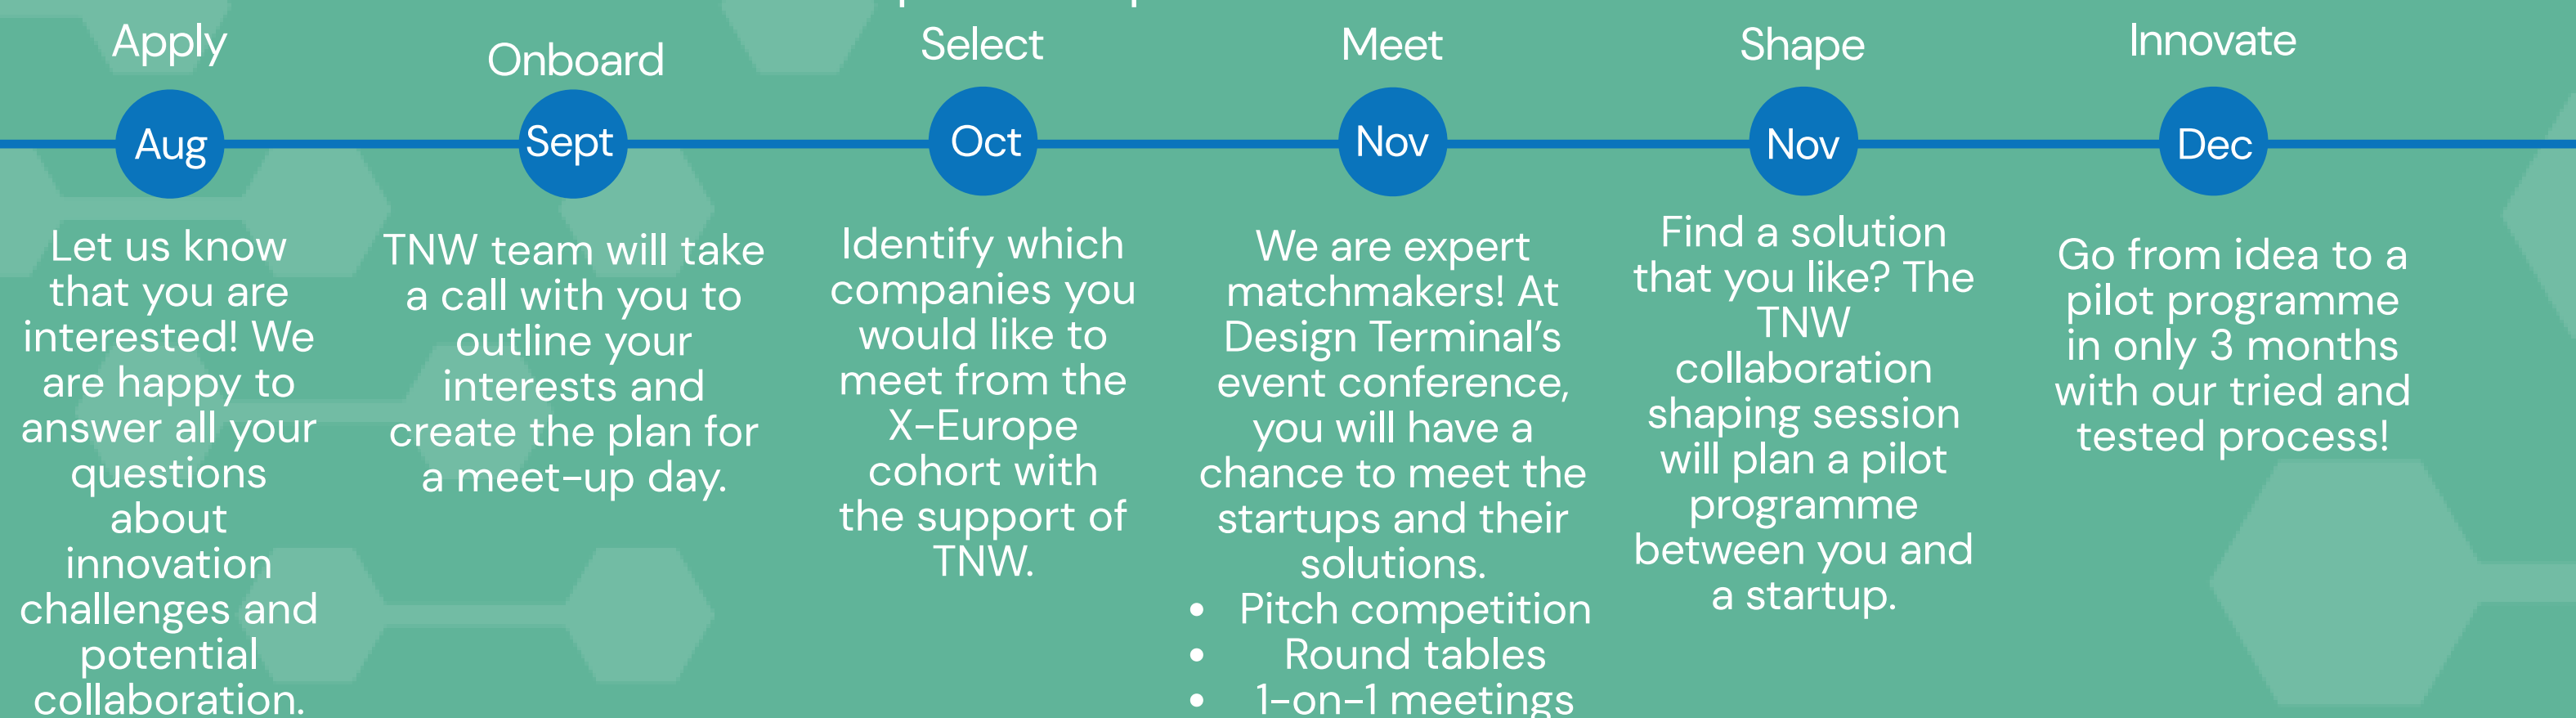

Goal

- Connect startups and corporates in the Agritech space.
- Create a community of entrepreneurial actors to share knowledge, opportunity, and progress.

Benefits

- Cost-free chance to address your key innovation challenges.
- Personalised meet-up session with 5+ startups of your choice from the X-Europe participants to discuss potential collaborations. Curated and facilitated by TNW.
- Direct access to matchmaking with all 25 X-Europe startups in one place, pre-vetted and ready to pitch their solutions and partner with you.
- Possibility to kick off long-term partnerships.
- Access to Design Terminal Conference, November 2020.
