# EENergy Application

EENergy Application: Your company name

Application name

Welcome to the form where your company can apply to the EENergy programme, which is funded by the European Union, implemented by the Enterprise Europe Network (EEN), and evaluated by the World Bank. This programme will provide grants of up to €10,000 to a minimum of 900 eligible firms across 37 programme countries to support the implementation of energy saving activities. Interested SMEs will work with the EEN to create energy saving Action Plans with support from a Sustainability Advisor. Once the action plan is finalized, firms will complete this application form in order to apply to the programme. In a transparent and fair process, all eligible SMEs will then be selected via a lottery to either 1) receive the standard services offered by EEN sustainability advisors or, 2) receive the standard services offered by EEN in addition to a grant of up to €10,000 to implement the activities presented in the developed Action Plan. It is anticipated that this form will take approximately 30 minutes to complete.

All firms participating in this programme – independent of the financial support - will be required to participate in an additional data collection survey anticipated in January 2026, regardless of whether they are selected to receive a grant of up to €10,000, will also receive a benchmarking report which demonstrates how their firm compares to the average of all other programme participating firms. Commitment to responding to the surveys – irrespective of whether the firm receives the additional grant or not - is a prerequisite to participating in the program.

Consent note:

Your data will be kept confidential. It will only be used for research purposes and processed under the General Data Protection Regulation (GDPR) as listed on the home page.

In case of missing information, we may reach out to you.

In case of any concerns, questions or doubts, you can reach out to Steffen Helledie [sth@ndeudk](mailto:sth@ndeudk)

By clicking this box, you confirm that you have read the corresponding information and agree to participate in this form.

I have read the Privacy Policy regarding the processing of my personal data

I have read, understood and agree to the privacy policy

I have read, understood and do not agree to the privacy policy

I hereby consent to the processing of the personal data that I have provided, and I agree that the evaluation can use my individual firm level data in aggregated form (not individually identifiable) to inform the benchmarking reports previously mentioned. I declare my agreement with the Privacy Policy Statement and I understand that my responses will remain confidential and will be used for research purposes.

- I agree to the processing of my personal data
- I do not agree to the processing of my personal data

More information on the research project and how the information will be used.

#### Research Project: Your Rights

An independent impact evaluation of the program is being conducted by the World Bank, based on the data shared by all firms. It aims to understand the impact of the additional financial support on firms. Findings and learnings from this evaluation will be used to inform scaling up and the designing similar programmes in the future. The information used for the study will be anonymized and used in aggregated form. Participation in the study is voluntary and causes no harm to the participants.

If you have a concern about any ethical aspect of this study, please contact Alexandra Avdeenko at [aavdeenko@worldbank.org](mailto:aavdeenko@worldbank.org) and provide the study title "The impact of financial support to SMEs to improve energy efficiency: A pan-European RCT".

**Risks:** There are no risks involved other than what you would encounter in daily life.

**My rights:** I am taking part in this study voluntarily and I am free to withdraw at any time during the study. I acknowledge that I do not have to answer any questions I do not want to answer. I can request that my data is removed up until the point of analysis. Refusal to take part in or withdrawing from this study will involve no penalty or loss of benefits I would receive otherwise.

**Purpose of research:** I understand that the research conducted is accompanying the EENergy project purely for learning and academic purposes, primarily as a means to identify the impact generated by the program and to identify learnings and improvements for any similar future programs. Results may be available to the public in research journals, books and other academic publications.

**Questions:** If I have any questions pertaining to this research, or my rights as a participant, I can contact Alexandra Avdeenko at [aavdeenko@worldbank.org](mailto:aavdeenko@worldbank.org).

**Debrief:** I will have an opportunity to receive a debrief explaining the research and its purposes following completion of the study.

By confirming that I have read this consent form, I also confirm that I am 18 years or older and agree to take part in this study outlined above. I am participating in this research in a self-determined capacity.

- I confirm that I have read the mentioned information and I consent to participate in the pilot study
- I confirm that I have read the mentioned information and I do not consent to participate in the pilot study

What is the name of your organisation's primary contact person?

What is the role or title of this primary contact person?

What is the email address of your organisation's primary contact person?

What is the phone number (including country code) of your organisation's primary contact person?

What is the name of your organisation's secondary contact person?

What is the role or title of this secondary contact person?

What is the email address of your organisation's secondary contact person?

What is the phone number (including country code) of your organisation's secondary contact person?

What is the legal name of your organisation?

The full name of the legal entity representative, who has the right to sign the contract on behalf of the applying company

Website of the company (optional)

If available, please share the link to your firm's LinkedIn page (optional)

Have you been engaged with the Enterprise Europe Network previous to EENergy?

Yes

No

What is the name of your EEN Sustainability Advisor?

From which organisation is your EEN Sustainability Advisor?

▼

AL / EEN-ALBANIA / FONDACIONIT AGJENCIA RAJONALE E ZHVILLIMIT SME

...

Please start typing in the search field your country code or EEN consortium name or the name of EEN organisation, then select the one you are working with.

What is the email address of your EEN Sustainability Advisor?

Please note, an email will be sent to your sustainability advisor containing the contents of your application. This step is necessary for the advisor to confirm your application.

The provided email address will be validated against the EEN organisation database to ensure the named sustainability advisor is an EEN colleague. Therefore, please ensure the official work email of the EEN advisor is used and no personal email accounts (e.g., gmail, hotmail etc.) are provided.

Please confirm the email address of your EEN Sustainability Advisor?

**Please ensure the email addresses match**

Does your firm operate in several sites (e.g., has several plants or branches)?

Yes

No

Only if the firm has multiple sites or plants: **In this section, we would like to inquire information about the organisation's main site or main plant (short "establishment") where the 10 000 Euro funding would be used, if selected. Please provide information only for this organisation/main site/main plant.**

In which country is the establishment registered as a business?

▼

Albania  
Austria  
Belgium  
Bosnia and Herzegovina  
Bulgaria  
Croatia  
Cyprus  
Czechia  
Denmark  
Estonia  
...

Please double check to make sure that the EEN organisation you are working with, as reported in the previous section, matches the answer provided here, unless....

On which date did the establishment start operating

Please select the primary industry sector of your establishment

▼

A. Agriculture, Forestry and Fishing  
B. Mining and Quarrying  
C. Manufacturing  
D. Electricity, Gas, Steam and Air Conditioning Supply  
E. Water Supply; Sewerage, Waste Management and Remediation Activities  
F. Construction  
G. Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles  
H. Transportation and Storage  
I. Accommodation and Food Service Activities  
J. Information and Communication  
...

Please provide a brief description of your primary product or service at the establishment

What is the nature of the main economic activity carried out at your establishment

Agriculture

Manufacturing (including processing)

Services

If you are a manufacturer operating in the agricultural industry, please select manufacturing

What is the street name and street number of the establishment, where the action plan will be carried out?

What is the postal code of the establishment where the action plan will be carried out?

How many full-time equivalent (FTE) employees are employed in this establishment?

How much is the total monthly salary bill paid for all workers at this establishment in Euros (€)?

Please refer to the salary bill of the current month at the time of completing the EENergy grant application.

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Is your establishment VAT registered?

Yes

No

What is your establishment's **business registry registration number**?

If your VAT number and business registry registration number are the same, please enter this number in both corresponding questions.

Select the name of your business registry

Albania-Qendra Kombëtare e Biznesit: Regjistrin Tregtar / The National Business Center commercial register

...

In 2024, what was the establishment's **revenue** in Euros (€)?

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-infoeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-infoeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If final certified accounting data for 2024 is not yet available, please provide the nearest available value for 2024 from your accounts.

In 2024, what were the establishment's total costs for **materials and inputs** in Euros (€)?

**Materials and inputs are defined as total costs of energy, goods, materials and services (include raw materials).**

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-infoeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-infoeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If final certified accounting data for 2024 is not yet available, please provide the nearest available value for 2024 from your accounts.

In 2024, what was the approximate value of the establishment's total machinery equipment for production in Euros (€)?

Please include valuation of any machinery and/or equipment used to facilitate production or provide services that have been in use for more than 3 months. That is, the current value or replacement value of machinery and equipment that can be mechanic, electrical or computerized that is property of the establishment that is in the production processes or services by the establishment.

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If final certified accounting data for 2024 is not yet available, please provide the nearest available value for 2024 from your accounts.

In 2024, what were the establishment's **total costs for energy** in Euros (€)?

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If final certified accounting data for 2024 is not yet available, please provide the nearest available value for 2024 from your accounts.

In 2024, how many kilowatt hours (kWh) of electricity did this establishment consume?

Electricity covers electrical energy generated through all types of facilities (e.g. in nuclear, thermal, hydro, wind, photovoltaic or other plants).

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

In 2024, how many kilowatt hours (kWh) of electricity did your establishment produce with own renewable sources (e.g., solar panels)?

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

In 2024, how much did you pay for electricity consumption in Euros (€)?

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

In 2024, how much did you spend on gas in Euros (€)?

This includes natural gas which occurs in underground deposits, whether liquefied or gaseous, consisting mainly of methane. It includes both "non-associated" gas (from fields producing hydrocarbons only in gaseous form), and "associated" gas (produced in association with crude oil as well as methane recovered from coal mines or from coal seams).

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

Please enter 0 if you do not consume any energy via this source.

In 2024, what was the quantity of the gas consumed in m3?

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

Please enter 0 if you do not consume any energy via this source.

In 2024, how much did you spend on oil in Euros (€)?

This includes oil and petroleum products (blended with biofuels) which accounts for the following petroleum products: Liquefied petroleum gas, Motor gasoline, Kerosenes, Gas/diesel oil and Residual fuel oil.

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

Please enter 0 if you do not consume any energy via this source.

In 2024, what was the quantity of the oil consumed in litres?

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

Please enter 0 if you do not consume any energy via this source.

In 2024, how much did you spend on solid fuel in Euros (€)?

Examples of solid fuels include charcoal, wood residues and by-products which consist of firewood (in log, brushwood, pellet or chip form), animal waste or other vegetal materials and residues.

If your local currency is not Euros, please convert your figures into Euros using the official exchange rate from the 1st December 2024, as reported on the InforEuro website: [https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro\\_en](https://commission.europa.eu/funding-tenders/procedures-guidelines-tenders/information-contractors-and-beneficiaries/exchange-rate-inforeuro_en)

Please remember to focus on the main organisation/main site/main plant where the investment is planned.

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

Please enter 0 if you do not consume any energy via this source.

In 2024, what was the total mass of solid fuel consumed in kilograms (kg)?

If a final exact value for 2024 is not yet available, please provide a nearest available estimate.

Please enter 0 if you do not consume any energy via this source.

Does the information on energy consumption or costing that you have provided above (electricity, gas, oil or solid fuels) stem from a central heating system?

Yes

No

Central heating refers to a system designed to distribute heat to multiple rooms or spaces within a building from a central source. This heating could be distributed throughout a building using various means such as radiators, underfloor heating systems, or forced air through ductwork.

How often are you billed for energy?

Quarterly

Monthly

Other

Have any back-payments, additional to your regular monthly or quarterly expenses, been included in the energy bills that you have uploaded?

Yes

No

If you pay a fixed amount per month/ quarter for your energy use and then you pay/receive an additional amount at the end of the year for any energy use above/below what was estimated by your energy provider.

Did you invest in energy efficiency activities in 2024?

Yes

No

Over the last 24 months, did this establishment monitor its energy consumption?

Yes

No

Over the last 24 months, did this establishment complete an external audit of its energy consumption?

Yes

No

Do not know

Over the last 24 months, did this establishment have targets for energy consumption?

Yes

No

Does not apply

Do not know

Does the firm have a dedicated energy manager?

- Yes
- No
- Does not apply
- Do not know

Does the establishment participate in any form of carbon trading (e.g. ETS Scheme)?

- Yes
- No
- Do not know

To help simplify reporting on energy efficiency impacts, would your establishment be willing to share smart meter data?

- Yes
- No

Allowing access to the smart meter data will allow more detailed and insightful benchmark reports to be prepared for your establishment.

The use of this smart meter number will be strictly restricted for impact evaluation purposes and cannot be shared with third parties.

---

## Details on Request for Funding

Has your EEN Sustainability Advisor completed a sustainability assessment of your organisation?

- Yes
- No

Performing an assessment with an EEN Sustainability Advisor is a pre-requisite to be considered for funding under EENergy.

Have representatives of your organisation worked with an EEN Sustainability Advisor to develop an EENergy Implementation Plan?

- Yes
- No

Formulating an EENergy Implementation plan with an EEN Sustainability Advisor is a pre-requisite to be considered for funding under EENergy.

What types of activities will you carry out in your EENergy Implementation Plan?

- Investment: Renewable energy sources including PV Panels
- Investment: Energy Storage Solutions
- Investment: LED's and Efficient Lighting
- Investment: Replacement or HVAC and/or heat recovery systems
- Investment: Replacement or upgrade of building (e.g., insulation, doors, windows)
- Investment: Installing Control Systems, Smart meters, and Sensors
- Investment: Electric vehicles and charging stations
- Investment: Machinery Replacement or Upgrade
- Investment: Office Equipment Replacement or Upgrade
- Investment: Other investments not covered above
- ...

Please select all types of actions you plan to carry out **within your EENergy implementation plan**

The investment definition covers the implementation, acquisition, purchase, and/or installation of new software, hardware, equipment, or other technologies.

The consultancy and training categories cover advisory & consultancy services, energy audits, training & upskilling activities, and other such "soft investments" aimed at identifying energy efficiency improvements or improving the general energy efficiency characteristics.

If your planned activities do not fit directly to any of these categories, please select those which best represent them.

This question is primarily for statistical purposes and to assist clients and advisors to find example implementation plans as shown in Annex B of the guideline for applicants. Not all categories are covered with a corresponding example in Annex B. The answer provided here will have no influence on the eligibility check procedure.

What is the scope of your EENergy Implementation Plan

- Company
- Building
- Department
- Production Line
- Equipment

Please describe briefly the nature of your investment:

500 characters

Provide a short overview of the activities you will carry out during your EENergy Implementation Plan.

NOTE: Please do not describe your overarching EEN action plan here, please focus on those activities which will be financed by the EENergy grant funding.

What is the current approximate annual consumption of the scope where you are carrying out your implementation plan, in kWh / year?

State the amount of energy in kWh that is consumed within your chosen scope on an annual basis. This can be based off a full year's measurement (e.g., in the case of energy bills), or on a shorter measurement period extrapolated to an annual value.

How is this consumption measured?

- Energy bills
- Manufacturer declaration
- Internal metering system
- Dedicated measurement
- Energy certificate
- Internal calculation

Please select the primary measurement methodology for arriving at the annual consumption figure.

What will be the approximate annual consumption of the scope once you have carried out your implementation, plan in kWh / year?

State the amount of energy in kWh that is expected to be consumed within your chosen scope on an annual basis, once your implementation plan has been carried out. This can be based off a full year's measurement (e.g., in the case of energy bills), or on a shorter measurement period extrapolated to an annual value.

How will this consumption be measured?

- Energy bills
- Manufacturer declaration
- Internal metering system
- Dedicated measurement
- Energy certificate
- Internal calculation

Please select the primary measurement methodology for arriving at this figure.

What is the expected energy reduction in percentage (%) that will be achieved with this investment?

Based on the current and expected annual consumptions of the unit, indicate what energy reduction is to be expected.

Please explain the rationale for expecting this reduction:

1000 characters

Provide an explanation for how the current and expected consumption has been calculated / analysed / predicted. It is important to provide credible and analytical reasoning for how these consumption figures have been calculated in order to ascertain if the 5% reduction can be credibly achieved with the planned activities.

---

## Declarations

I have read and understood the information about the project, as provided in the Guide for Applicants (GfA).

I have been given the opportunity to ask questions about the project and my participation via the helpdesk address.

I voluntarily agree to participate in the EENergy project and I understand that I am participating in the impact evaluation of this programme and I consent to being contacted for the purposes of this impact evaluation (research).

I acknowledge that the evaluators and the European Commission and its bodies and agencies may have access to the data collected under the open call and that this data may be linked with other data sources.

The data provided in the application form are true and up-to-date.

The organisation I represent meets the eligibility conditions described in the GfA and is an SME.

There is no conflict of interest between the organisation I represent and any of the consortium partners.

I agree

I disagree

I commit to provide the above mentioned data over the next 12 months through a follow-up survey for the purpose of a study to evaluate the impact of this project as requested by EENergy, programme evaluators, and the European Commission and its bodies or agencies as part of this programme, even if my organisation is not selected as a funding recipient under the EENergy open call.

Should my organisation be selected as a funding recipient under the EENergy open call, I commit to carrying out the planned activities detailed in my application.

If any planned activities cannot be carried out due to major disruptions or problems occurring during the performance of the activities, I commit to informing my allocated EEN Sustainability Advisor and the EENergy consortium about the nature of the disruption and its impact on the implementation of the activities.

I commit to reporting the progress and outcomes of the funded activities as set out in the grant agreement.

Following the completion of activity implementation, I commit to writing a short report describing the activities that were carried out.

I commit to keeping proper records of any implementation activities, any corresponding transactions such as bills or invoices, any raw data collected, and any data used to calculate energy performance for audit purposes.

I commit to providing the required materials for communication & dissemination purposes as outlined within the GfA.

I agree

I disagree

I understand that if my organisation is selected as part of an open call, my organisation cannot apply to other calls of this programme, regardless of whether my organisation is randomly selected to receive funding support. I understand that even if my organisation is not randomly selected to receive funding support as part of this programme, my organisation will still receive technical support from the EENergy network.

I agree

I disagree

Moreover, the organisation I represent, or persons with power of representation, decision-making or control over the aforementioned legal organisation:

- is /are not bankrupt or being wound up, is not having its affairs administered by the courts, has not entered into an arrangement with creditors, has not suspended business activities, is not the subject of proceedings concerning those matters, or is not in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- has/have not been convicted of an offence concerning their professional conduct by a judgment which has the force of res judicata
- has/have not been guilty of grave professional misconduct proven by any means which the contracting authority can justify, including by decisions of the European Investment Bank and international organisations
- is/are in compliance with their obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which it is established or with those of the country of the contracting authority or those of the country where the contract is to be performed
- has/have not been the subject of a judgment which has the force of res judicata for fraud, corruption, involvement in a criminal organisation or any other illegal activity, where such illegal activity is detrimental to the Union's financial interests.
- is/are not subject to an administrative penalty for being guilty of misrepresenting the information required by the contracting authority as a condition of participation in a grant award procedure or another procurement procedure, or failing to supply this information, or has/have not been declared to be in serious breach of their obligations under contracts or grants covered by the Union's budget.

I agree

I disagree

I understand that if my activities extend beyond January 31st, 2026, my organisation must commit to completing and signing the declaration of honor regarding the achievement of the 5% energy savings beyond the end of the EENergy project.

I agree

I disagree

I did not make false declarations in supplying the information required, as a condition of participation in the Open Call or do not fail to supply this information

I agree

I disagree

Where did you find out about the EENergy call?

Directly from my EEN advisor.

From an EEN info session or event.

LinkedIn or other social network.

Other

This project has received funding from the European Union's Single Market Programme (SMP) under grant agreement No. 101143477, and is being executed in direct cooperation with the Enterprise Europe Network
